GARAGE SERVICE
ON THE HIGHEST LEVEL

OUR GARAGE – A MASTER BUSINESS AND AN OFFICIAL BASE OF „TÜV" AND „DEKRA"

Masters of motorcar as well as trained employees are working in our garage. They repair all commercial vehicles, trucks and busses and analyse faults with original test machines of MAN and Mercedes. It is connected to the spare part programme of MAN and Mercedes and due to this reason spare parts can be organised very quickly.

Our garage is an official base of „TÜV" and „Dekra" (three times a week) – two technical German inspection agencies, an approved „AU" (= analysis of exhaust emissions), „SP" (= safety test) garage and an apprenticing company.
