Two master of motorcar and six employees are working in our garage.

It is connected to the spare part programme of MAN and Mercedes and due to this reason spare parts can be organised very quickly.

Our garage is a official base of „TÜV“ (=Technical Inspection Agency) and „Dekra“ (= also a technical inspection agency) (three times a week), an approved „AU“ (= analysis of exhaust emissions), „SP“ (= safety test) garage and a apprenticeship company.
